Experience

2022 - 2023

Freelance Full Stack Developer & Web Administrator

Swissforce Pharma AG, Risch-Rotkreuz, Switzerland

- Successfully collaborated with the CEO in optimizing the company's website and leveraging an open-source CMS.
- Employed data analysis techniques and implemented effective SEO strategies to enhance user engagement and drive optimal results.
- Succeeded as a Web Administrator & Data Analyst in significantly improving online visibility for Swissforce Pharma.
- Technologies: Shopify, HTML, CSS, Google Analytics, SEO, Google Ads

2018 - 2020

Full Stack Developer & Email Marketing Manager, Team Lead

SystemBase, Tanger, Morocco

- Leading the development of innovative email marketing strategies, I combined my expertise as a Full Stack Developer with an in-depth understanding of customer engagement techniques.
- Identification of effective channels and methods for customer engagement and team management by analysis of data and insights to optimize campaigns and identify opportunities for growth.
- Managing a team in executing mailing operations and ensuring the seamless implementation and improvement of email campaigns.
- Technologies: HTML, CSS, JavaScript, Testing, Configuration DNS, SPF

2015 - 2018

Full Stack Developer | Server Monitoring & Support Specialist

SOM Consulting, Tanger, Morocco

- Monitored server status in real-time using NAGIOS, ensuring smooth operations and immediate issue management.
- Development of automated workflows using email marketing platforms.
- Collaborated closely with cross-functional teams to tackle complex technical challenges, and deliver practical as well as innovative solutions.
- Technologies: HTML, CSS, JavaScript, Testing, Configuration DNS, SPF
